

# AFRICAN AFFAIRS VIDEO CONTENT BY THE DEPARTMENT OF STATE

The U.S. Department of State produces video content of government officials and events, such as press briefings, camera sprays, and speeches. All video content is free of charge and available to the public via the internet and satellite.

For a compilation of all U.S.-Africa related press products, please visit [www.fpc.state.gov/africa2014](http://www.fpc.state.gov/africa2014)

## VIDEO DISTRIBUTION

### Web Stream

LIVE web streaming of public events can be viewed at  
[www.video.state.gov/live](http://www.video.state.gov/live)

### Download

The Defense Video and Imagery Distribution System (DVIDS) website hosts State Department video and audio content, available for download in both broadcast and web quality. Register and download content at [www.dvidshub.net/unit/USDOS](http://www.dvidshub.net/unit/USDOS)

### Satellite

The State Department Satellite Feed globally broadcasts video content four times a day. Broadcasters can pull the video content directly. Sign up for daily alerts or visit the web page for a current program schedule and technical instructions to access the satellite feed.
